REPORT ON MEDICAL CAMP CONDUCTED AT MAGADI

Date: 23 February 2026

Place: Motegowdanapalya, Magadi Taluk

Organised by: Sri Lakshmi Multi Speciality Hospital

In Association with: Sri Lakshmi Law College

A **Medical Camp** was successfully organised at **Magadi** on **23rd February 2026** by **Sri Lakshmi Multi Speciality Hospital** in association with **Sri Lakshmi Law College**, with the objective of providing accessible healthcare services and creating health awareness among the rural population.

The camp was conducted under the guidance of **Dr. Karthik A., MBBS, MD**, along with a team of qualified doctors and medical staff. Around **200 villagers** from Magadi and nearby areas gathered and availed themselves of the medical services offered during the camp. Free medical consultations were provided in the areas of **general medicine and orthopaedics**, along with health check-ups such as blood pressure monitoring, blood sugar testing, and basic clinical examinations. Orthopaedic consultations were especially beneficial to elderly patients and individuals suffering from joint pain, back pain, and mobility-related issues.

Medicines were distributed free of cost, and patients were given proper medical advice, follow-up guidance, and lifestyle recommendations. The active participation of students and faculty members of **Sri Lakshmi Law College** played a significant role in the smooth organisation of the camp. They assisted in patient registration, coordination, and overall management of the programme.

The trustees and organisers of the medical camp were honoured with **mementos** in recognition of their dedicated service and valuable contribution to community welfare. The camp received an overwhelming response from the local residents and successfully fulfilled its objective of extending quality healthcare services to the rural community.

The programme concluded with a vote of thanks to **Dr. Karthik A.**, the medical team, trustees, volunteers, and all supporters who contributed to the success of the medical camp. The event highlighted the importance of collaborative efforts between healthcare institutions and educational establishments in promoting public health and social responsibility.
